SCRUBBERS™

HAND & TOOL CLEANING TOWELS

Safely and quickly removes asphalt and more!

Scrubbers™ Hand and Tool Cleaning Towels are specially formulated, pre-moistened, water-based, dual-textured towels that safely and quickly, clean hard-to-remove asphalt or tar based mastics, adhesives, coatings, and sealants. Also effective for removing oils, greases, and more, from hands, tools, and virtually any surface.*

- Quick, convenient, and no water needed
- Solvent-free and low odor
- Fast and deep cleaning action
- Non-toxic and soft on hands

*Test in small inconspicuous area to ensure compatibility.

INITIAL SET UP: 1.) Remove the entire lid from the canister (do not put fingers through the openings). **2.)** Locate and pull the first towel at the center of the roll and thread through the bottom of the lid, in the large opening. **3.)** Replace the lid and pull the towel at an angle into the small opening on the lid. **4.)** Dispense each towel by pulling straight up past the perforation, then pull at an angle to tear off.

USE: Use abrasive side of towel to scrub hands and surfaces to be cleaned. Use smooth side to lift the targeted substance away. After each use, close the lid securely to prevent moisture loss.

Tip: Using a towel on clean hands will create a barrier between the skin and the substance for faster and easier clean up.

CONTENTS: Distilled Water, Emulsifier/Wetting Agent, Moisturizers, Natural Skin Conditioner.

HMIS RATING: Health - 0 / Flammability - 0 / Reactivity - 0 / PPE - None

PRECAUTIONS: For external use only. Always follow good safety practices, keep out of reach of children. This product is safe and non-toxic on general health. Do not use in eyes, mouth, and check for skin sensitivity first. If eye contact occurs, flush well with water. Dispose of used towels appropriately.

STORAGE: Store product in a cool location, keep lid on the container when not in use to prevent drying out of towels.
